CoMag PET

The manual strapping tool for PET strap with seal magazine

The consistent further development of the Combi PET model permits additional time saving by the automatic seal feeding (direct from the magazine)

The 13 mm and 16 mm PET strapping tool cuts tension-free and thus splice-free.

High degree of safety through high tension and reliable seal.

◆ Patented seals in magazine for trouble-free operation

◆ Time saving, flexible, and easy to operate

◆ Reliable crimp with seal

◆ High sealing strength up to 75% of strap strength

◆ For 13 mm (1/2") and 16 mm (5/8") PET strap widths
