

ManuCord

Accessory for Round Bundles

The specifically for the ManuCord MRC developed accessory provides a simple way for fast and reliable strapping of all packages, that have no alternatively only small contact face.

It tensions textile strap as effective as composite strap up to 25 mm width. The robust design makes possible an optimum tensioning force and provides optimal security of the packaged goods.

- ◆ Special accessory for strapping of goods with no or only small contact face
- ◆ Suitable for strapping with buckles
- ◆ Easiest handling
- ◆ Optimum tensioning result
- ◆ For textile and composite strap with 13 mm (1/2") and 16 mm (5/8"), 19mm (3/4") or 25 mm (1") width
